The Scoop on Toner Scams

With the unlimited amount of phone calls and emails you receive a day it can be hard to keep track of who you talked to and what they do for you. Scammers take advantage of this and use it for their own benefit. You can't protect yourself if you are not aware of the variety of different schemes some people will throw at you. At Rhyme, we know this and that's why we want to ensure that your organization is aware of the potential scams that go on in our industry.

01

SAFETY TIP

Make sure your staff knows who's in charge of ordering office supplies and that their correct vendor is **Rhyme**. That way you will avoid confusion of who is supposed to order what and from where.

02

SAFETY TIP

If you receive any calls of this nature take the name of the representative down, phone number and any other information your able to obtain. With this information we can make the BBB aware of the potential scammer.
