Robust high-quality color

Rely on the Lexmark XS748de color laser MFP for the high-quality color printing, scanning and copying essential to business.

- Match corporate colors with Lexmark Named Color Replacement and PANTONE® calibration.
- Lexmark high-yield cartridges let you print up to 12,000 pages per cartridge in black and 10,000 pages per cartridge in color.¹
- Print and copy quickly at speeds up to 35 ppm and a time to first page as fast as 9 seconds in both black and color.
- The high-speed processor, 512MB RAM and Gigabit Ethernet networking mean fast data transfer and fast processing, even on complex color documents.
- Reliable paper feeding supports diverse media, including card stock, vinyl labels, banners and more.

Performance and productivity

The combination of easy-to-use features and reliable performance means business processes are intuitive and you are productive.

- The easy-to-use 7-inch color touch screen provides audible feedback and tablet-like navigation.
- Expand input capacity with optional paper drawers that boost total input capacity up to 4,300 sheets.
- Quickly print and copy documents using the instant warm-up fuser that also reduces energy consumption.
- Create custom messages to provide helpful information such as helpdesk telephone numbers and company communications.
- Instead of installing individual drivers for each printer model, the Lexmark Universal Print Driver provides a standardized, one-driver solution.

Business solutions

The Lexmark Embedded Solutions Framework (eSF) helps expand functionality, move information more efficiently, lower costs and analyze usage patterns.

- Quickly and efficiently access basic eSF solutions directly from the 7-inch color touch screen.
- The optional hard disk provides the ability to store files on the device and run additional solutions with ease.
- Pre-loaded solutions mean you can be productive and save time, money and paper right out of the box.
- Additional solutions are available for greater savings and productivity.
- Models with solutions capabilities also have the card reader option for greater security.

¹ Based on approximately 5% print coverage. Actual yields may vary based on factors such as page coverage, image type, job size, print/copy/fax modes, and duplexing.

² "Recommended Monthly Page Volume" is a range of pages that helps customers evaluate Lexmark's product offerings based on the average number of pages customers plan to print on the device each month. Lexmark recommends that the number of pages per month be within the stated range for optimum device performance, based on factors including: supplies replacement intervals, paper loading intervals, speed, and typical customer usage.

³ "Maximum Monthly Duty Cycle" is defined as the maximum number of pages a device could deliver in a month using a multishift operation. This metric provides a comparison of robustness in relation to other Lexmark printers and MFPs.
