

TONER RECYCLING

Know - How

PLANET PARTNERS TONER RECYCLING

HP offers our customers a free supplies recycling program for all HP consumables, including: **ink cartridges and printheads, graphics & 3D cartridges and printheads, LaserJet toner cartridges, toner reload kits, and toner long life consumables.** HP provides all collection and shipping materials and covers all shipping and recycling costs. Once returned to HP cartridges are sorted, disassembled, or shredded. Materials can then be given a new life, using recycled content in new cartridges.

SUPPLY ITEMS TO RECYCLE

HP ink and toner cartridges, printheads, and long life consumables are recyclable. The HP Supplies Recycling Program is intended for HP products only. HP reserves the right to charge back those customers who ship non-HP products.

WHY SHIP USED CARTRIDGES IN BULK?

More than one billion Original HP Ink and Toner cartridges have been recycled by customers with HP Planet Partners. You can help us further reduce our carbon footprint by conserving energy and resources by collecting toner cartridges in the collection/shipping containers. After careful consideration and review of all costs associated with our recycling efforts, HP can offer a more comprehensive recycling program that includes all types of supply items by offering more efficient bulk shipping.
