

CARES Act Funding for Education Technology for the New Normal

Federal coronavirus relief funding is aiding educational institutions in their efforts to prepare and respond to the pandemic. Now more than ever, upholding safety and education is paramount; that's why we are proud to offer solutions that can support teachers, students and staff during these trying times.

Make the most out of your CARES Act funds

Collaboration Displays

Hybrid teaching tools such as the AQUOS BOARD® interactive display or Windows collaboration display from Sharp.

Laptops & Accessories

Fill technology gaps with laptops, monitors and accessories to enable distance learning.

Unified Communications

Help teachers and students connect through a unified platform for voice, chat, video and more as well as Microsoft 365 collaboration tools.

Thermal Screening

Deliver fast, safe and reliable temperature screenings on students and faculty that doesn't involve any touchpoints.

Remote Concierge

Staff the front desk and classrooms without having staff on site to lower the risk of exposure.

"Touch-Free" Copiers

Use a smartphone app or Amazon Alexa voice-first interaction on select models to print, copy and scan.

Digital Files & Workflows

Digitize paperwork and processes and manage files in one location for secure access, in or out of school.

IT Services & Support

Remote help desk support for troubleshooting and IT services to help protect personnel and student records.

Contact us today to learn how we can help support your preparedness and response initiatives.
